**DETAILED ACTION**

1. Claims 1-28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims as a whole are replete with limitations lacking antecedent basis and positive recitation. Each element of the combination should be positively set forth and correlated one with respect to another to make for a complete and operative device or article. Claim 1 will be treated herein but all the claims should be reviewed and amended into proper claim form. On line 1/2 of claim 1, the limitation, "so as to penetrate one into the other" is unclear and renders the claim indefinite. On line 2 of claim 1, "the longitudinal direction" lacks antecedent basis. On line 3 of claim 1, "transverse hinge pins" is not positively recited. On line 5 of claim 1, "transverse center pin" lacks positive recitation in the claim. On line 6 it is unclear where the "means for receiving" is located with respect to the "articulated parts". On line 7 of claim 1, "two transverse connecting articulation rods" lacks positive recitation. On line 8 of claim 1, "on the one hand" is indefinite in nature and renders the claim indefinite. Further the limitation, "issue laterally" is an unclear and indefinite limitation. Further in claim 1, line 8/9 "set-back portion" as a limitation is unclear and its location is unclear. Further on line 9 of claim 1, "on the other hand" is an unclear and indefinite limitation. Again on line 10, the limitation, "issue laterally" is an indefinite and unclear limitation. Further on line 10 of claim 1, "two projection portions" lacks structural location within the combination. On line 11 of claim 1, "said rods" and "the other of

these rods", lacks antecedent basis. On line 12 of claim 1, "locked angularly" is not understood and is unclear. Further on line 12 of claim 1, "two lateral faces" lacks structural correlation; where are such structure located with respect to the set-back portion.

2. Claims 1-28 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
4. Any inquiry concerning this communication or earlier communications from the Examiner should be directed to David B. Jones whose telephone number is (571) 272-4518.

Any inquiry of general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (571) 272-3700.

In the event that the Applicant (s) wishes to communicate via Fax number for Group 3700 is (703) 872-9306.
